So, Lisa O. Monaco is on the
"Biden short bus", excuse me, Short List 😉, to head the DOJ?
Now that's very interesting, considering her CCIPS computer system played a roll in the 2020 Election fraud. Not manipulating votes but covering tracks, covering for those that did.

> That's it, CCIPS. Dig a little deeper and see who got credit for "introducing" it. Lisa O. Manaco. The same person Edward McLarnon is in prison for trying to kill. She is also tied to Boston Marathon bomber just like he is. FBI DOJ wanted her removed and planned FF to do it.

It will get to the point they all line up against RR.Especially on"The Italian Job" since it was the corrupt CCIPS system Rod controlled, that would allow them to "plant evidence against Trump"on servers here in the US. Times almost up RR."May the hot rain find you horizontal "

CCIPS who is still being used in Baltimore. If someone is arrested CCIPS is used illegally against all their family, friends, and associates, together information against the defendant and if anything is found they claim an anonymous source or someone ratted out someone else.

Exactly, they used it for compromising judges, illegal surveillance, insider trading, and on and on. And they killed to protect their actions. People on both sides of the aisle participated, it's how RR kept his job under Obama.

I have now had it confirmed that the CCIPS system has been used by bad actors against Kim Klacik, her staff, friends, family, associates, and those supporting her campaign. Information obtained illegally in this manner has been handed over to associates of her opponent.

footage but doesn't show my face and my voice is altered.
And one version only mentions me as a deep cover operative.
This was a case in Massachusetts that had ties to the false flag Boston bomber and FB-I.
Times to Obama, Lisa Monaco, Mueller, Comey,RR, Etc.

Yes, the DOJ's own computer was used to commit and cover fraud in the 2020 election. This may explain some resistance that investigations and complaints are getting 🤔🤔
It may also explain the noticeable absence of doj involvement in the 2020 election fraud 🤔🤔🤔

Lisa Monaco, I saved your life. I saved the life of your parents your brother and your entire family. Along with federal judge F. Dennis Saylor, and Martha Coakley.
I put myself, my wife, and my family in grave danger to expose the murder plot and the false flag plans that were

set to kill every one of the people listed. I exposed the FBI false flag agents who were apart of the plan.
I made sure you had 24/7 Secret Service protection for you and your family and the others named.
(Setting off a quiet war between the FBI and the Secret Service)

Edward Zed McLarnon is doing a minimum 25 years for his part in the plan against you. His cohorts are either in prison or killed during apprehension, making sure the FBI involvement would never be known.

And what did you do to thank me? Obama offered you a "federal bench", a judgeship. So you stayed quiet, wouldn't help me at all, wouldn't even say thank you.

And you stayed quiet and even helped them cover up the murder of Molly and others. All for a bench that never materialized

I guess you're trying to get your "Due Payment" now.

Too Many good people are gone, trying to expose what's been going on for years. What took place in 2016, 2018, and now 2020 😔😔😔😔😔😔😔😔😔😔😔😔😔

12/ One of the best things out of @ericries's Lean Startup is the concept of "vanity metrics" - unimportant, inflated metrics that don't have much to do with business value. But the effects of using them are different when you're a startup versus a big co.

13/ For big, established companies, focusing on vanity metrics is silly but not harmful. Everyone's thrown up a huge number to celebrate for an offsite. I get it. But for startups who are pre-product/market fit, it can lead down a path towards
